

THIS IS AN APPLICATION FOR A CLAIMS MADE AND REPORTED POLICY. THIS APPLICATION IS NOT A BINDER.

This application for NetGuard® Plus Cyber Liability Insurance is intended to be used for the preliminary evaluation of a submission. When completed in its entirety, this application will enable the Underwriter to decide whether or not to authorize the binding of insurance. Please type or print clearly and answer all questions. If space is insufficient to answer any question fully, attach a separate sheet. Complete all required supplemental forms/applications. "You" and "Your", as used in this application, means the Applicant.

Please refer to the attached Cyber Glossary for an explanation of the cyber security terms that appear in bold face type.

1. GENERAL INFORMATION

Name of Primary Applicant: _____

Business Address: _____

Phone: _____

Website (List all websites/domains owned/operated by all entities seeking coverage): _____

Attach a list of all subsidiaries, affiliated companies or entities owned by the Applicant and include a description of (1) the nature of operations of each such subsidiary, affiliated company or entity, (2) its relationship to the Applicant and (3) the percentage of ownership by the Applicant.

2. TOTAL GROSS REVENUES

Current Full Fiscal Year:

\$ _____

3. RECORDS

Do you collect, store, host, process, control, use or share any private or sensitive information in either paper or electronic form? Yes No

If "Yes", provide the approximate number of unique records (paper and electronic): 0-499k 500k-999k 1M+

4. RANSOMWARE CONTROLS

a. Do you allow remote access to your network? Yes No

If "Yes", do you require **Multi-Factor Authentication (MFA)** to secure all remote access to your network, by employees and third parties, including **VPNs (Virtual Private Network)**, **RDP (Remote Desktop Protocol)**, **RDWeb (Remote Desktop Web)** or any **RMM (Remote Management and Monitoring)** applications? Yes No

b. Do you use **MFA** to protect all local and remote access to privileged user accounts? Yes No

c. Do you use an **endpoint detection and response (EDR)** tool that includes centralized monitoring and logging of all endpoint activity across your enterprise? Yes No

If "Yes", complete the following:

(1) Select your **EDR** provider: Choose an item

If "Other", provide the name of your **EDR** provider: _____

5. LOSS HISTORY

In the past 3 years, has the Applicant or any other person or organization proposed for this insurance experienced one or more of the following:

- Been served with a lawsuit or received a demand, complaint or charge alleging liability for a privacy breach, privacy injury, security breach, intellectual property infringement or reputational harm;
- Been the subject of any government action, investigation or proceedings regarding any alleged violation of privacy law;
- Notified customers, clients or any third party of any security breach or privacy breach; Yes No
- Received any cyber extortion demand or threat;
- Sustained any unscheduled network outage or interruption for any reason, lasting longer than 4 hours;
- Sustained any property damage or business interruption losses as a result of a cyber-attack;
- Sustained any losses due to wire transfer fraud, telecommunications fraud or phishing fraud;
- A business interruption as a direct result of an unscheduled network outage or interruption of a service provider computer system; or
- Became aware of any other cyber security or data privacy event, incident or allegation involving or impacting your organization?

If "Yes", please complete a Claim Supplemental Form for each claim, allegation or incident.

6. IT DEPARTMENT

This section must be completed by the individual within the Applicant's organization who is responsible for network security. As used in this section only, "you" refers only to such individual.

Within the Applicant's organization, who is responsible for network security?

Name:

Phone:

Title:

Email address:

NOTICE TO APPLICANT

The insurance for which you are applying will not respond to incidents about which any person proposed for coverage had knowledge prior to the effective date of the policy nor will coverage apply to any claim or circumstance identified or that should have been identified in question 5 of this application.

NOTICE TO NEW YORK APPLICANTS: ANY PERSON WHO KNOWINGLY AND WITH INTENT TO DEFRAUD ANY INSURANCE COMPANY OR OTHER PERSON FILES AN APPLICATION FOR INSURANCE CONTAINING ANY FALSE INFORMATION, OR CONCEALS FOR THE PURPOSE OF MISLEADING, INFORMATION CONCERNING ANY FACT MATERIAL THERETO, COMMITS A FRAUDULENT INSURANCE ACT, WHICH IS A CRIME.

The Applicant hereby acknowledges that he/she/it is aware that the limit of liability shall be reduced, and may be completely exhausted, by claim expenses and, in such event, the Insurer shall not be liable for claim expenses or any judgment or settlement that exceed the limit of liability.

I HEREBY DECLARE that, after inquiry, the above statements and particulars are true and I have not suppressed or misstated any material fact, and that I agree that this application shall be the basis of the contract with the Underwriters.

CERTIFICATION, CONSENT AND SIGNATURE

The Applicant has read the foregoing and understands that completion of this application does not bind the Underwriter or the Broker to provide coverage. It is agreed, however, that this application is complete and correct to the best of the Applicant's knowledge and belief, and that all particulars which may have a bearing upon acceptability as a NetGuard® Plus Cyber Liability Insurance risk have been revealed.

By signing below, the Applicant consents to the Insurer conducting non-intrusive scans of the Applicant's internet-facing systems / applications for vulnerabilities.

It is understood that this application shall form the basis of the contract should the Underwriter approve coverage, and should the Applicant be satisfied with the Underwriter's quotation. It is further agreed that, if in the time between submission of this application and the requested date for coverage to be effective, the Applicant becomes aware of any information which would change the answers furnished in response to any question of this application, such information shall be revealed immediately in writing to the Underwriter.

This application shall be deemed attached to and form a part of the Policy should coverage be bound.

Must be signed by an officer of the company.

Print or Type Applicant's Name	Title of Applicant
Signature of Applicant	Date Signed by Applicant

California Fraud Warning

For your protection, California law requires the following to appear on this form: Any person who knowingly presents false or fraudulent information to obtain or amend insurance coverage or to make a claim for the payment of a loss is guilty of a crime and may be subject to fines and confinement in state prison.

The following Cyber Glossary is provided to assist you in completing your application correctly and completely.

Endpoint Detection and Response (EDR), also known as endpoint *threat* detection and response, centrally collects and analyzes comprehensive endpoint data across your entire organization to provide a full picture of potential threats.

Common Providers: Carbon Black Cloud; Crowdstrike Falcon Insight; SentinelOne; Windows Defender Endpoint

Immutable backups are backup files that are fixed, unchangeable, and can be deployed to production servers immediately in case of ransomware attacks or other data loss.

Multi-Factor Authentication (MFA) is an electronic authentication method in which a computer user is granted access to a website or application only after successfully presenting two or more pieces of evidence to an authentication mechanism: knowledge (e.g., password), possession (e.g., phone or key), and inherence (e.g., FaceID or hand print). MFA for remote email access can be enabled through most email providers.

Common MFA providers for remote network access: Okta; Duo; LastPass; OneLogin; and Auth0.

Next-Generation Anti-Virus (NGAV) is software that uses predictive analytics driven by machine learning and artificial intelligence and combines with threat intelligence to detect and prevent malware and fileless non-malware attacks, identify malicious behavior, and respond to new and emerging threats that previously went undetected. For purposes of completing this application, NGAV refers to anti-virus protection that focuses on detecting and preventing malware on each individual endpoint. If your organization has a NGAV solution and you are centrally monitoring and analyzing all endpoint activity, please indicate that you have NGAV & EDR on the application.

Common Providers: BitDefender™; Carbon Black; CrowdStrike Falcon Prevent; SentinelOne; Sophos; Symantec

Offline/Air-gapped backup solution refers to a backup and recovery solution in which one copy of your organization's data is offline (i.e., disconnected) and cannot be accessed. If a file or system of files has no connection to the internet or a LAN, it can't be remotely hacked or corrupted.

Personally Identifiable Information (PII) is information that can be used to determine, distinguish or trace an individual's identity, either alone or when combined with other personal or identifying information that is linked or linkable to a specific individual, including, but not limited to, financial account numbers, security codes, personal identification numbers (PINs), credit and debit card numbers, medical or healthcare information, social security numbers, driver's license numbers, addresses, passwords, and any other non-public information as defined in Privacy Regulations.

Protected Health Information (PHI) is any health information that can identify an individual. PHI includes demographic identifiers, in medical records, like names, phone numbers, emails, and biometric information like fingerprints, voiceprints, genetic information, and facial images.

Remote Desktop Protocol (RDP) is a proprietary protocol developed by Microsoft which provides a user with a graphical interface to connect to another computer over a network connection. The Microsoft RDP provides remote display and input capabilities over network connections for Windows-based applications running on a server.

Remote Desktop Web (RDWeb), also known as Microsoft Remote Desktop Web Access, is a service that provides remote access to corporate resources through a web portal. Resources may include remote desktop access and other applications published on the portal.

Remote Monitoring and Management (RMM) tools allow IT providers to remotely manage and monitor network environments. RMM tools may include remote access, patch management, and reporting functionalities.

Common Providers: ConnectWise and ManageEngine

Virtual Private Network (VPN) encrypts connections between a remote device and an internal network. VPNs are utilized to allow systems from outside the network to connect to internal resources.

Common Providers: Fortnet, Cisco, and Palo Alto VPN Appliances
